

SPEAKER

James Coyle, Ph.D., CCC-SLP, BCS-S, is an Associate Professor of Communication Science and Disorders at the University of Pittsburgh where he co-developed the department’s clinical doctorate program in Medical Speech Language Pathology. He teaches undergraduate, Master’s and doctoral SLP students both in the classrooms and clinics through his active caseload at the University of Pittsburgh Medical Center, where he also conducts dysphagia research. He lectures nationally and internationally about the medical aspects of the speech-language pathology profession. He is a Board Certified Specialist in Swallowing Disorders and an ASHA Fellow.

Speaker Financial Disclosures:

Starting at \$24!

- Over 100 clinically relevant, treatment-focused programs
- Topics include cognition, dysphagia, voice, ethics, counseling, autism, apraxia, language and fluency
- Visit NorthernSpeech.com/CEUs

Who Should Attend?

SLPs who work with adult dysphagic patients across the care continuum, including:

- Skilled Nursing
- Long-Term Care
- Home Health
- Hospital Acute
- Hospital Rehab
- Hospital Outpatient

1.2 ASHA CEUs

SEMINAR DESCRIPTION

Speech-Language Pathologists working in the medical setting face unique challenges. Patients referred for evaluation and treatment often have multiple diagnoses impacting swallowing function. This seminar provides essential information on managing these complex adult patients. Discussed will be swallow function and treatment planning as related to body systems, the aging process, and patient lab values. Specifically, this clinically focused seminar will:

- Identify risk factors of pneumonia.
- Differentiate between aspiration and other etiologies of pneumonia.
- Describe respiratory and deglutitive interactions in the aerodigestive tract.
- Explain how common pulmonary diseases affect normal breathing.
- Review common esophageal pathologies and how they could lead to dysphagia symptoms.
- Describe what are appropriate and informed decisions regarding patients with a tracheostomy.
- Explain the meaning of various diagnostic reports in the medical record.
- Identify when symptoms of dysphagia related to normal aging is not a disease.
- Discuss various compensatory and restorative behavioral treatments to determine when they are, and are not, appropriate.

COURSE OBJECTIVES

At the conclusion of this program, the participant will be able to:

1. Describe the ventilatory and respiratory roles of the respiratory system.
2. State how common pulmonary diseases affect normal breathing.
3. List three risk factors for pneumonia.
4. Describe the effects of aging on the respiratory system.
5. Explain how parts of the digestive system work in healthy states.
6. List one esophageal disorder related to speech pathology practice.
7. List two behaviors to identify when assessing a patient with a tracheostomy.
8. State one compensatory intervention technique that would be appropriate for a patient with a digestive disorder.
9. State one restorative intervention technique that would be appropriate for a patient with a pulmonary disorder.

\$305 each for groups of 2-4
\$295 each for groups of 5+

*Groups MUST register together

SPACE IS LIMITED AND REGISTRATION MUST BE CONFIRMED BY CREDIT CARD, CHECK OR PURCHASE ORDER.

Intended Audience:

Speech-language pathologists who evaluate and treat adult patients with dysphagia across the continuum of care, including skilled nursing facilities, home health, outpatient and hospital settings.

Prerequisite: Must have a degree in Speech-Language Pathology.

This course is offered for 1.2 ASHA CEUs

(Intermediate level, Professional area).

California: NSS is approved as a provider of continuing education by the California Speech-Language Pathology and Audiology Board. Provider #PDP4.

and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

SEMINAR OUTLINE

Register Today!

FREMONT, CA April 7-8, 2017

FRIDAY, APRIL 7, 2017

12:30pm-12:55pm	Registration (Sign in and pick up handouts)
12:55pm-1:00pm	General Seminar Information
1:00pm-1:30pm	The Role of the Speech Pathologist in a Medical Setting
1:30pm-2:30pm	The Two Components of Breathing and Why They Are Interdependent and Important
2:30pm-3:30pm	Common Pulmonary Diseases In Adults and How They Alter Breathing and Swallowing
3:30pm-3:45pm	Break
3:45pm-4:45pm	Is it Pneumonia, Aspiration Pneumonia, or Something Else and How Do Lungs Respond to Pneumonia?
4:45pm-5:15pm	The Effects Of Aging On The Respiratory System
5:15pm-6:00pm	Understanding Chest X-Ray Reports
6:00pm	Adjourn and Sign Out

SATURDAY, APRIL 8, 2017

7:30am-7:55am	Sign In
8:00am-8:45am	Understanding the Digestive System and Its Many Functions
8:45am-9:45am	Normal Esophageal Structure and Function And Esophageal Test Procedures: What Do These Things Mean?
9:45am-10:15am	Structural Disorders of the Esophagus And Implications for the Speech Pathologist
10:15am-10:30am	Break
10:30am-11:30am	Esophageal Motility Disorders And Treatment Protocols Including Considerations For The Management of Reflux Disease
11:30am-12:15pm	Tracheostomy Considerations and Effect on Swallowing
12:15pm-1:15pm	Lunch on Own
1:15pm-2:15pm	Assessment and Treatment Planning for Patients with Tracheostomy: Are Protocols the Answer?
2:15pm-3:15pm	Compensatory Treatments for the Dysphagic Patient: What They Are And Who Can Benefit From These Interventions? Discussion Will Include Use of Exercise, Thickened Liquids, and Water Protocols
3:15pm-3:30pm	Break
3:30pm-4:30pm	Restorative Treatments For Dysphagic Patients: What Are They And Who Can Benefit From These Interventions?
4:30pm-4:45pm	Summary and Questions
4:45pm	Adjourn, Sign Out and Pick Up Certificates
